

Diabetes

("Die-uh-bee-tees")

Diabetes is when you have too much sugar in your blood or urine. You are tired all the time. You do not have any energy. It is like having a car with no gas to get somewhere.

If you have sugar in your blood for too long, you can have problems with:

What to look for:

Do you always want something to drink?

Are you always tired?

Are you losing weight?

Do you pee all the time?

Do you have hurt places that do not get well?

Are your eyes not working right?

Do you eat all the time and you still want more?
